PREFACE

The Indian National Bibliography has been conceived as an authoritative bibliographical record of current publications in the major languages of India, received by the National Library, Calcutta, under the provisions of the Delivery of Books (Public Libraries) Act, 1954.

The following categories of publications are, however, excluded from the Bibliography:

(a) Maps

(b) Musical scores

(c) Periodicals and newspapers (except the first issue of a new periodical and the first issue of a periodical under a new title)

(d) Keys and guides to text-books

(e) Ephemeral material, such as, trade catalogues, telephone directories, reports of commercial bodies, publicity pamphlets, etc.

Transliteration :

Books in all the languages are arranged in one sequence under subject groups. To facilitate this arrangement the names of Indian authors and titles are transliterated into roman script with diacritical marks where necessary. The collations and annotations are in English.

Arrangement :

The bibliography is presented in three parts:—The Classified, The Author and Title and The Subject Index. In the classified part the entries are arranged by subjects according to the 16th edition of the Deway Demical Classification. The verbal extension of Deway class numbers is shown by '1' in square bracket, *i.e.* [1]. For example 301.153 [1]—Non-violence. Here 301.153 stands for Social Movements and [1] stands for expansion of that topic viz. Non-violence, which is more specific. This expansion has been used where the Deway number is not available for a specific subject. The Colon number is assigned at the right hand bottom corner of each entry. The language of a book is indicated by a symbol which is likewise noted at the left hand bottom corner.

Full bibliographical information about a book is given in the classified part in the following order : the class number, the author's birth and also death, if available; the full title, the place of publication, the publisher, the year of publication, the number of pages, nature of illustrations, if any; the size, the nature of binding, the price, the series and annotations wherever necessary. Whenever a certain piece of information can not be ascertained, blank square brackets in their respective positions indicate that particular information is not available. Whenever no indication is given as to the nature of binding it is to be understood that the book is in sewed paper covers.

The following examples of an entry and an explanation of its details will be of assistance to the users of this volume :

The entry :

839.8221—Norwegian Drama[2]

839.8226—1800—1900

Ibsen, Henrick[3], 1828—1906[4]

Kalakar[5], tr. from English by Vinayak S. Rajguru[6], Poona[7], Rajguru prakashan[8], Aug. 1976-viii, 65 p.[10]. 21 cm.[11] 8.00.[12]

Originally pub. as 'Bygmester solness'[13]

English title : 'The master builder'[14] (Ma)[15]
O115,2M28[16]

Explanation :

1. Dewey Decimal Classification Number; 2. Subject feature; 3. Author ; 4. Date of birth and Date of death of the author ; 5. Title; 6. Translator ; 7. Place of publication; 8. Publisher ; 9. Year and month of publication; 10. No. of pages of the text ; 11. Size ; 12. Price ; 13—14. Notes; 15. Language-symbol, meaning that book is in Marathi ; 16. Colon classification.

Author :

The entries in the classified part are arranged alphabetically by the name of the authors under each specific subject. When only the author of a book is known it can be traced from the Index. If the information in the Index entry is found inadequate, a reference may be made to the classified part for fuller information by referring to the decimal code number assigned at the end of the author index entry.

Index entries are also made under distinctive titles, editors, commentators, compilers, translators, series, etc. In certain cases entries are made under the names of countries, cities and institutions which are considered to be the authors of their official publications. Journals, reports and transaction of societies are entered under the names of the societies; and periodicals and anonymous works are entered under the title.

Subject :

To find out books on a particular subject first locate it in the subject index which is separately printed after the general index and then refer to the classified section by means of Dewey Decimal Classification number assigned against the name of the subject. For example, in the subject Index 'India' all the subjects related to India have been brought together to facilitate use of the Bibliography. In the subject Index of the present volume all entries regarding India will be found thus :

India	:	Architecture	720.954
